

Billy-Co Inc.

November 2005

Billy has really started to put on the weight. On his last check-up he weighed in at just under 6 kilos which is around 13 lbs. He is getting the hang of napping, being awake without crying, and sleeping long hours in the night. So far his record is 6 hours during the night. He LOVES having his diaper changed and taking a bath in warm water.

Lydia turned three this month and continues to be such a joy. She is proof of the old rhyme about girls being made of "sugar and spice and everything nice." She is quick to apologize when confronted and quick to say "OK daddy" when given a command. She LOVES cutting things with scissors.

Cory is purely "snakes and snails and puppy-dog tails." We continue to wonder who are son is, as almost every morning he wakes up he declares, "I'm going to be (some super hero) today." On the left he is "Dash" the Incredible and on the right he is Superman holding up every stool in our house. We kept saying he couldn't do it, but he did it! He has phased out of taking afternoon naps and now goes to bed at 7pm rather than 9. When he's not drawing, coloring, and cutting with scissors he LOVES smothering Billy with kisses.
